Date: 25 July 2017

Dear *Dr Rao,*

As you are aware that Central Water Commission (CWC) is a premier technical organization of India in the field of water resources. CWC is managing the ongoing Dam Rehabilitation and Improvement Project (DRIP) with World Bank assistance to rehabilitate about 225 dams in India. As part of the institutional strengthening initiative, CWC is organizing Dam Safety Conferences as yearly events under the aegis of DRIP. The response to earlier three conferences organized in the years 2015, 2016 and 2017 was overwhelming in terms of professional participation, technical papers contributed and participation by Indian and overseas organizations in the exhibition during the Conferences.

CWC in collaboration with Kerala Water Resources Department (KWRD), Kerala State Electricity Board (KSEB), National Institute of Technology (NIT), Calicut, and College of Engineering, Trivandrum (CET) is organizing the International Dam Safety Conference-2018 during 23-24<sup>th</sup> January 2018 in Thiruvananthapuram, Kerala; details are available at our website: <https://damsafety.in/idsc2018/>. About 500 professionals representing various disciplines nationally as well as internationally are expected to participate.

I invite your active participation in this conference by contributing technical papers/case histories relating to the themes of the Conference and share your valuable knowledge and experience.

In view of your association with DRIP activities, I take the liberty to request your assistance in promoting the International Dam Safety Conference - 2018 by publishing the following link prominently on your website:

**International Dam Safety Conference - 2018**  
23<sup>rd</sup> & 24<sup>th</sup> January 2018 Thiruvananthapuram, Kerala, India  
Organized by CWC, KWRD, KSEB, NITC, and CET  
website: <https://damsafety.in/idsc2018/>

I look forward to your early response

With Best Regards.

Yours sincerely

*Pramod Narayan*
